

bing

Now there's an idea!

Microwave ovens use 70% less energy than conventional ovens.
So if you want to save money, use a microwave instead.

It's that simple.

And did you know that a pot with a lid will heat
almost twice as fast as a pot without a lid?

So think about how you use your energy. You'll soon
find simple ways to cut down your usage and save money.

SAVE ENERGY, SAVE MONEY.
