Course Name: Polarity Training

Objectives: This course will provide participants with the ability to perform Aurora's polarity testing procedure. This course covers off on the two locations in which a polarity test may be carried out (Switchboard & P of A) and is designed for all personnel who may be required to perform this task. On successful completion of the course, participants will have their passports stamped.

Course Outline:

- Basic theory around polarity testing including theory assessment.
- Practical assessments.
- Fault identification and interpretation.
- Additional test procedures.
- Familiarisation with test equipment.

Prerequisites: Electrician, Lineworker, Cable Jointer or person in training (Apprentice)

Duration: Half day
(Dependant on the competency of the students)

Venue: Aurora Energy Mornington

Cost: To be negotiated

Minimum/Maximum: Min 1 / Max 6
