

The power of **aurora+**

You could save heaps on
your power by switching to
our easy-to-use app

Hot showers, heaters and washing machines are things that can use a lot of power.

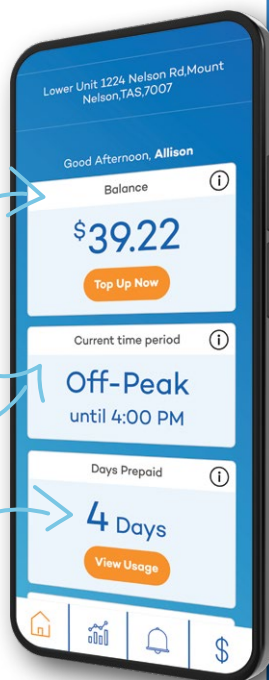

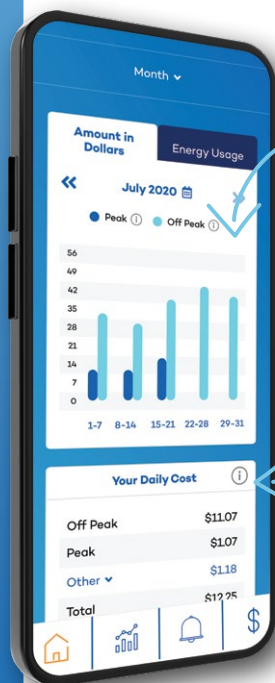

Track when you are using the most power and make changes to your routines to help save

See how much power you are using down to the cent!

Prepay to get ahead of your bills!

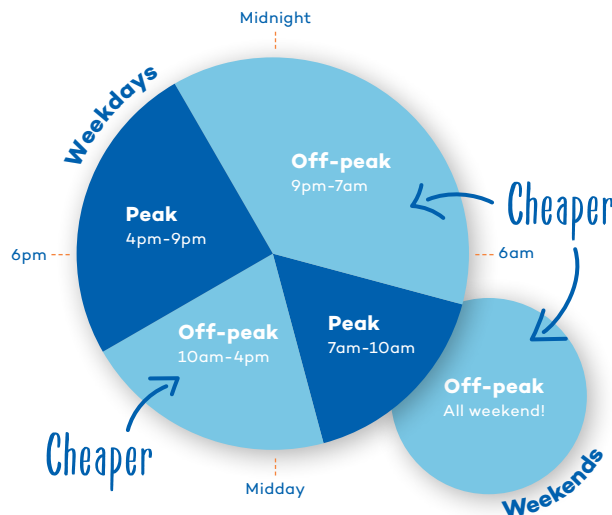

See when it's peak and off-peak

Check how many days you have pre-paid

Did you know there are cheaper times to use power?

You could be paying less for your power, every day, with our Peak and Off-Peak plan.

*During daylight saving, these times move forward one hour.

What's great about aurora+?

- + Easy-to-use app
- + Gives you more ways to pay
- + Helps you save by allowing you to track your power usage

aurora+ gives you more ways to pay

Monthly

Say goodbye to getting big bills every three months.

As you go

Top up credit using your phone, tablet or computer.

Direct debit

Set an automatic top up for when your account gets low.
